

Dhrubjyoti Chattopadhyay

QA Engineer | Automation, Manual & API Testing | Azure Cloud | Agile/Scrum

[GitHub](#) | [Email](#) | [LinkedIn](#) | [X](#)

SUMMARY

QA Engineer with 3 years of experience in Software Quality Assurance, specializing in Java, Selenium WebDriver, TestNG, Maven, API testing, SQL, Git and Jenkins. Experienced in Functional, Regression, Smoke, Sanity, API and Database Testing with POM-based automation frameworks and Agile/Scrum environments.

EXPERIENCE

Operations Associate | eTeam Infoservices Pvt. Ltd.

2024 – Present | India

Uber Eats & Postmates | Client: Uber

Java, Selenium WebDriver, TestNG, Maven, Jenkins, Postman, Jira, GitHub

- Developed and maintained Java-Selenium automation using POM and TestNG; executed regression suites through Jenkins CI.
- Performed REST API validation using Postman and managed defects through Jira across sprint releases.

LOADHIVE | Client: Nitro Logistics Inc.

Java, Selenium WebDriver, Maven, MySQL, Jira

- Created manual test scenarios and Selenium automation for shipment workflows and regression coverage.
- Performed SQL-based backend validation in MySQL and tracked end-to-end defects through Jira.

Manual Test Engineer | Contractual

2022 – 2023 | India

Road Construction & Management Portal | Client: Civil Engineering Department

Jira, TestRail, MySQL, Excel

- Executed functional and regression testing with SQL-based backend validation.
- Conducted KT sessions covering test strategy and core application workflows.

PERSONAL PROJECTS

FastLogistics Shipment Management — Data-driven Selenium framework using Java, TestNG and POM for shipment and dashboard workflows.

SauceDemo Automation — Selenium WebDriver and TestNG framework using POM for end-to-end e-commerce automation.

Azure VNet Peering & Custom RBAC — Implemented Azure VNet peering and custom RBAC for controlled VM operations.

SKILLS

Automation: Java, Selenium WebDriver, TestNG, Maven, POM

Manual Testing: Functional, Regression, Smoke, Sanity, SIT, UAT, BVA, ECP

API & Database: REST API, Postman, MySQL, SQL, Backend Validation

Tools: Jira, GitHub, Eclipse, TestRail, Chrome DevTools

CI/CD & Cloud: Jenkins, GitHub Actions, Microsoft Azure, AZ-104

Methodologies: Agile/Scrum, STLC, SDLC, Bug Lifecycle Management

CERTIFICATIONS

Microsoft Certified: Azure Administrator Associate (AZ-104) | Microsoft Certified: Azure Fundamentals (AZ-900)
